DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Kroll et al. (Pat. No. 5,507,781).

See Figs. 6C and 8C along with the corresponding discharge circuits.

Allowable Subject Matter

3. Claims 3-10, 12-16, 18 and 19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Concerning claim 3 and claims with similar limitations, the prior art of record fails to disclose switching circuitry that allows a first step of a pulse waveform to be generated by combining first, second and third capacitors in parallel, a second step to be generated by combining the first and second capacitors in parallel and the third in series, and a third step to be generated by combining the capacitors in series.

Regarding claim 6 and claims with similar limitations, the prior art of record does not appear to disclose the selection of capacitances to minimize the amount of energy to be stored in the capacitors while maximizing a final myocardial voltage within myocardial tissue receiving the pulse waveform.

4. Claims 20 and 21 are allowed.

Regarding claim 20, note the comment above with respect to claim 3.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3762

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
